

Product Description

Round bulkhead lamp

Round bulkhead lamp is a sealed, moisture-resistant lighting fixture designed for use in humid, wet, or dusty environments. It features a circular housing made from durable polycarbonate, often with an IP65 protection rating, ensuring it is protected against water splashes and dust ingress. This circular bulkhead light is ideal for both indoor and semi-outdoor installations, where reliability and long-lasting performance are essential.

Advantage

- Water and Moisture Resistant

LED bulkhead light ip65 designed with a high IP rating to perform safely in damp or steamy environments like bathrooms, kitchens, or outdoor corridors.

- Compact and Space-Efficient Design

The round shape offers a clean, modern look that fits well on ceilings or walls in various architectural settings.

- Durable and Impact-Resistant Housing

Round LED bulkhead lights made from high-quality plastic, often with optional protective grills for added strength.

- Easy to Install and Maintain

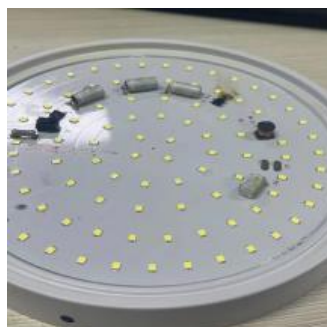

Round bulkhead outdoor lights designed for simple surface mounting, with easy access for lamp replacement or cleaning.

- Energy Efficient

LED bulkhead light ip65 offers lower power consumption and longer life compared to traditional incandescent or CFL lamps.

ABS lamp body + PC lampshade

SMD 3528

IC driver

Built-in waterproof ring

Round bulkhead lamp

Feature

- ✓ Durable Housing Materials
- ✓ Round, Compact Design
- ✓ Corrosion-Resistant Finishes
- ✓ Moisture and Dust Resistant
- ✓ Surface-Mounted Installation
- ✓ Soft, Glare-Free Lighting

Application

Round LED bulkhead lights are specifically designed for environments where moisture, humidity, dust, or occasional splashes of water are present. Their sealed, water-resistant construction and durable design make them ideal for both indoor and semi-outdoor use in residential, commercial, and industrial settings.

Common applications include:

- Balconies

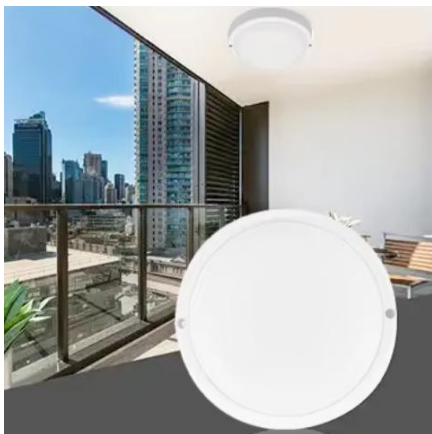

Ideal for sheltered exterior areas exposed to humidity or rain.

- Outdoor Hallways

Offers reliable and uniform lighting for circulation areas in apartment buildings.

- Bathrooms and Washrooms

Provides safe, moisture-resistant lighting in residential and public restrooms.
